Statement of the National Defence Commission of the Democratic People's Republic of Korea

Pyongyang, 25 June — The National Defence Commission of the DPRK issued a statement on 25 June 2015, 65 years after the US imperialists ignited a war of aggression on this land.

Many generations have been replaced by others and the era has also changed, but a fragile state of ceasefire, which is neither war nor peace, persists on the Korean Peninsula, the statement said, adding that the US imperialists' war moves have become more serious by the minute.

Far back in the 1950s when the Cold War started, the US launched the war with the intention to wipe out the DPRK, after setting it as target "A" in the secret "War Plan A,B,C", and then to stretch the tentacles of aggression to the vast areas of China and the former Soviet Union, targets "B" and "C".

The US ambition still lingers on the Korean Peninsula as a ghost of aggression and war.

This is reflected in the US hostile policy towards the DPRK, war acts pursuant to it and a strategic move for laying siege to the Asian continent.

The US design to politically isolate and stifle the DPRK has reached extremity pursuant to the strategy.

Far from drawing a lesson from the defeat in the war in the 1950s, the US has intensified isolation, blockade and suffocation of the DPRK in a bid to ignite a second Korean war. As the US imperialists' moves have reached a serious phase that can no longer be overlooked, the National Defence Commission of the DPRK said as follows:

1. We state to the world that the army and people of the DPRK will launch a nationwide anti-US struggle on a new and higher stage to foil the US imperialists' hostile policy towards the DPRK and their unprecedented moves to isolate and stifle it.

The date of 25 June indicts the US imperialists for their ferocity, cruelty and barbarity and makes the army and people of the DPRK give vent to the pent-up wrath and hatred.

What matters is that the US imperialists are working with bloodshot eyes to make the past crime-woven history repeat itself by igniting another war, far from apologizing with their knees bent for their thrice-cursed crimes.

The US is bracing for a nuclear war and even a modern germ warfare to exterminate the Korean people.

The new stage of the anti-US struggle will lead to a just confrontation, ending the long history of the DPRK-US stand-off with the victory of the DPRK.

2. The US should, although belatedly, repeal its hostile policy towards the DPRK that can never come true, and raise a white flag before history and the Korean people.

The army and people of the DPRK are not what they used to be in the past when they had no state, being under the jackboots of outsiders as they did not have enough rifles and swords.

The US had better face up to the reality and stop running amok.

It would be the best policy for it to immediately repeal its desperate hostile policy towards the DPRK.

It has to withdraw the war scenario targeting the DPRK and stop the reckless nuclear war racket which it has kicked up on land, at sea and in the air.

The US had better look back with a cool head at what its hostile policy towards the DPRK has entailed.

It should pay heed to the warning of the DPRK that it is ready for a conventional war, nuclear war and cyber warfare.

The only way for the US to take is to apologize before the army and people of the DPRK and hoist a white flag.

3. We appeal to the world to turn out in the worldwide anti-US struggle to dismember the gangster US imperialists.

The US is the most shameless chieftain of aggression and war and ill-famed architect of provocation and destruction.

It is not the time to be afraid of the US bluffing, blindly adding voice to the US unreasonable and brigand-like sophism and dance to the tune of the US acts of destruction and disturbance.

It is still not time to take to flunkeyism and submit to the US to echo whatever it says.

Whoever truly hopes for global peace and regional stability has to set right at an early date the dangerous situation on this planet plagued with bloodshed, disputes and upheavals caused by the US imperialists.

Asia should turn out to cut off the right hand of the US, Africa should rise up to cut off the left hand of the US, the Middle East has to cut off the ankles of the US and Europe has to cut off the neck of the US.

The whole world has to pool efforts to dismember the fatty monster US imperialists.

The US is just like a paper tiger, easy to be crushed and set on fire.

Whoever truly wishes for durable peace in the world, the welfare of humankind and lasting security for posterity has to turn out in the anti-US struggle in high spirits.

The DPRK will invariably stand in the vanguard of the worldwide just struggle against the US to build a peaceful world and defend the genuine life of humankind.
